**STONE-COATED
STEEL ROOFING**

OUR VISION

WHO WE ARE

At Queentile, innovation is at our core. We are committed to advancing the roofing market by delivering premium stone-coated steel roof tiles and accessories.

Founded in 2009, Queentile is a family-owned company with a global presence, proudly serving customers across Europe, Eastern regions, and the United States.

We combine cutting-edge technology with expert craftsmanship to set new standards in roofing solutions.

OUR GOALS

Create world-class roofing products.

Give customers confidence in their choice.

Continuously improve with the best materials and technologies.

OUR MISSION

To protect what matters most – homes and families – by providing beautiful, durable, and reliable roofing that withstands any weather, delivering a half-century of worry-free living.

SERGII DEMYDENKO

QUEENTILE Founder
and General Director

STONE-COATED STEEL ROOF TILES

They are beautiful, durable, and provide multilayer protection against heat and harsh weather.

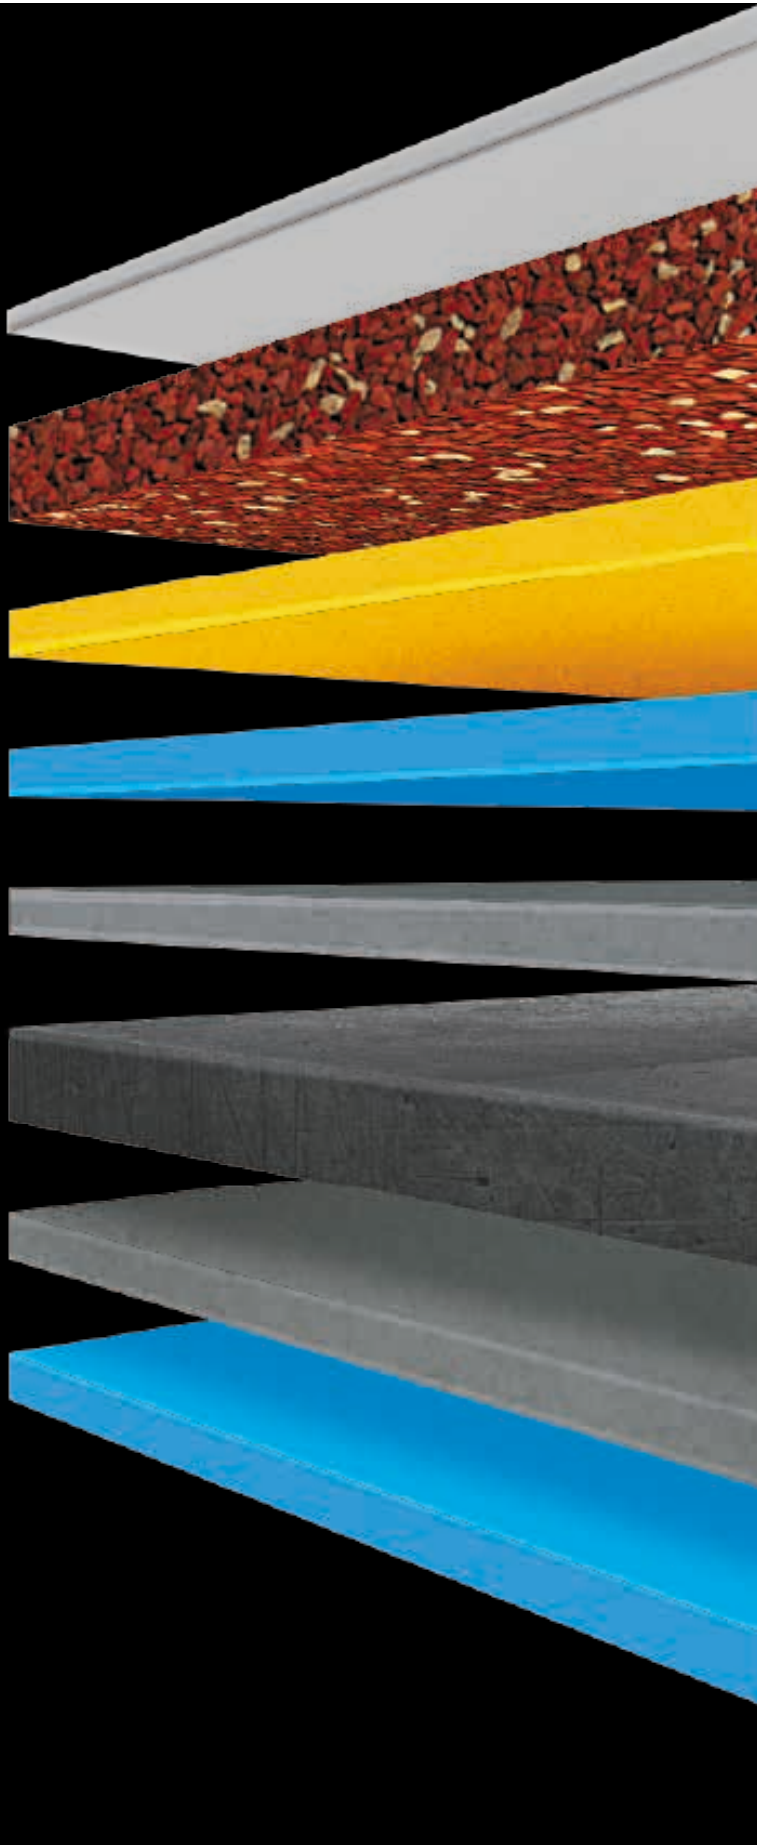

Built to last over 50 years, they feature a high-quality steel base coated with aluminum-zinc layers on both sides, which are six times more rust-resistant than other protective coatings.

Our unique and patented acrylic adhesive securely bonds natural basalt grit to the base, making our products unbreakable, durable, and flexible at the same time.

The finish coating offers additional protection against cracking and fading while also selfcleaning the roof of dust.

EACH OF THE 8 LAYERS SAFELY SHIELDS AGAINST ALL WEATHER CONDITIONS

- ① FINISHING COATING**
Protection from damage and fading, self-cleaning of dust.
- ② NATURAL BASALT GRIT**
Attractive design, durability, and all-weather protection.
- ③ ACRYLIC ADHESIVE**
Firm stone fixation, strength, and flexibility.
- ④ ACRYLIC PRIMER**
Extended lifespan, strong adhesion, and multi-level rust resistance.
- ⑤ ALUMINUM-ZINC COATING**
Long service life and six times more powerful rust resistance.
- ⑥ STEEL BASE**
Stable base, 0.018 in thickness, and high-quality steel.
- ⑦ ALUMINUM-ZINC COATING**
Long service life and six times more powerful rust resistance.
- ⑧ ACRYLIC PRIMER**
Extended lifespan, strong adhesion, and multi-level rust resistance.

QUEENTILE BENEFITS

More than 50-year lifespan: Enjoy decades of worry-free living without the need for roof replacement.

MULTILAYER PROTECTION

Defend against heat and harsh weather

EASY TO INSTALL

Save time and money on installation

ENERGY-SAVING

Cut energy costs by blocking extreme temperatures

NOISELESS

Flexibility	–	–	–	+
Snow/Ice Fall Preventing	+	–	–	+
Self-Cleaning of Dust	–	–	–	+
Warranty	15	30	50	50

OUR UNIQUENESS

As a manufacturing company with stock located in Tampa, FL, we offer "first-hand prices" and competitive delivery terms – some of the best on the market.

During the manufacturing process, we use a unique patented acrylic adhesive that firmly bonds stone grit to the steel base, allowing our material to bend up to 180 degrees without damage or cracking.

We offer a 50-year warranty on our products. Having met various global regulations, our products have undergone more than 5,000 hours of extensive testing.
